

SAFETY DATA SHEETS

To access William & Mary's Safety Data Sheet (SDS) electronic library, go to:
<https://www.wm.edu/offices/publicsafety/ehs/hazard/safetydatasheets/index.php>

Scan the QR Code to get to the SDS library:

For the inventory of a specific location, click on "LOCATIONS." Or you can access a SDS by searching for product name. Any additions, deletions, or questions shall be communicated to the EH&S office.

Hazard Communications (HAZCOM)

William & Mary has implemented the following protective measures to employees with regards to HAZCOM:

- **SDS** – William & Mary is required to have Safety Data Sheets available for every hazardous chemical or substance you use or encounter as a part of your job.
- **LABELS** - Every chemical container must have a clear and legible label.
- **TRAINING** - All employees receive initial training and recurrent annual training on hazards they may encounter.
- **WRITTEN PLAN** - The University's written plan is located at the following website:
<https://www.wm.edu/offices/publicsafety/ehs/hazard/index.php>
- **CHEMICAL INVENTORIES** – Chemical inventories are maintained by each department and communicated to the EH&S office. The SDSs can be accessed through the SDS website referenced above.

For a hard copy of an SDS, or job/task-specific questions, contact your supervisor.
